MORE THAN JUST SUSTAINABILITY

Class Project

for

PRIMARY schools

The Class Project allows you to:

- Involve up to **35 students** in **one project**
- **Use science** for inter-disciplinary studies, cooperative learning and open-ended investigation
- **Integrate science into your day-to-day class work** in an efficient way
- **Showcase science and Victorian Curriculum** outcomes to your school community (use the project as part of the National Science Week; display it on Open Day; report to parents in newsletter articles)
- Implement Victorian Curriculum strands and substrands:

Discipline-based learning

- Science
- Mathematics
- Technology
- The Arts
- English

Capabilities

- Critical and Creative Thinking
- Ethical (Personal learning, decision making)
