

JUDGING CRITERIA	Little	Some	Mostly Accurate	Accurate	Comprehensive	SUB-TOTAL
<b>1. Aim &amp; Scientific knowledge</b>	<b>1 - 2</b>	<b>3 - 4</b>	<b>5 - 6</b>	<b>7 - 8</b>	<b>9 - 10</b>	
	Basic intentions for taking images are discussed.	Aim and statement of intentions for taking photographs is explained.	Aim and <b>Scientific knowledge</b> is written within the report.	Aim and Scientific knowledge is <b>demonstrated and explained</b> according to the theme chosen.	Aim and Scientific knowledge is <b>justified</b> using the photographs as evidence.	
<b>2. Photographic Techniques (Method)</b>	<b>1 - 2</b>	<b>3 - 4</b>	<b>5 - 6</b>	<b>7 - 8</b>	<b>9 - 10</b>	
	Photographs are taken by a camera.	Camera type and setup (tripod or handheld) were identified and briefly explained.	Camera and setup explained; photos are well-focused with proper lighting and white balance.	Camera, setup, and key settings (ISO, lens, etc.) described; software use explained in relation to the theme.	All technical details provided (camera, setup, settings, software); advanced techniques (e.g., flash, microphotography) are clearly explained and linked to the theme.	
<b>3. Original Images; Bibliography and Acknowledgments.</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	
	Only Original images were used.	Original Images included.	Original Images included (in the same layout format (i.e. Portrait and/or landscape).	Original Images included (in the same layout format (i.e. Portrait and/or landscape) and labelled. Bibliography included.	Original Images included (in the same layout format (i.e. Portrait and/or landscape). Bibliography included and acknowledgements cited.	
<b>4. Oral Presentation</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>	
	Presentation goes for 2-3mins.	Presentation goes for 2-3mins and spoken clearly.	Presentation goes for 2-3mins and spoken clearly explaining the theme of the photographs.	Presentation goes for 2-3mins and spoken clearly explaining the theme and scientific ideas of the photographs and why they chose these images to represent these ideas.	Presentation goes for 2-3mins and spoken clearly explaining the theme and scientific ideas of the photographs and why they chose these images to represent these ideas. The photographic techniques are also discussed (not read from the report).
